

Thomas Stufano

Software Engineer

Last update: September 16, 2026

Up-to-date version of CV is available at

<https://Stufy21.github.io/cv/>

Software Engineer with a passion for IT since childhood, focused on building .NET and React Native based software. I value teamwork as fundamental to large-scale software development, and I'm committed to continuous learning and a healthy work-life balance. Outside of work: gym, books, movies, TV series, travel, and gaming.

 Bizeta Retail Solutions srl | a Custom company / Custom S.p.A

 Mestre and Mira, Italy

 Hybrid

Software Engineer

- GShop Suite (2020-2022): built small integrations and a .NET Core ETL connector between GShop Suite and [IdStore](#), replacing legacy handheld Windows CE devices with newer Android ones (Xamarin Android).
- OneStore (2022-2025): joined the development team for [OneStore](#), Custom S.p.A.'s point-of-sale solution for the retail fashion and luxury sector developed within its Software Business Unit; built the backend in .NET and progressively took on frontend work in ReactNative with [Expo](#).

- Supported OneStore's international rollout across Germany, Italy, USA, France and Japan, including leading the migration and customization of the application for multiple major Italian fashion retail go-lives.
- Version control and branch workflow: Git with Azure DevOps and GitKraken (Git GUI), following a release branch workflow with pull request policies.
